# **ST. THOMAS COLLEGE, PALAI**

## **INSTITUTIONAL DISTINCTIVENESS**

### **ST. THOMAS COLLEGE PALAI: A LEADER IN THE HIGHER EDUCATION SECTOR OF CENTRAL TRAVANCORE**

#### **INTRODUCTION**

When the college was established in 1950 on the banks of the River Meenachil with the collective effort of the agrarian population of central Kerala, its visionary founders had great expectations of making it a cultural centre of learning and holistic living. Being the first centre of higher education among the neighbouring taluks and by virtue of its geographical advantage, the college opened its doors of erudition to knowledge seekers in the developed vicinity as well as those from the academically under privileged of the high ranges of Idukki district. True to its foundational vision of equipping the students to venture out into the competitive world, the college through seven decades of uncompromising journey has grown into a pioneering institution offering 18 undergraduate programmes, 15 post graduate programmes and 10 research centres. In addition, the college offers three vocational programmes, many certificate, Add-on, VET and Value Added programmes/courses. An Archaeology Museum, founded in 2015 under the aegis of the Department of Archaeology is a unique one.

What we envisioned and executed was later emulated by the other institutions that sprang up in the neighbourhood in the course of time. The infrastructural might of St. Thomas with its well-stocked and regularly updating library and an adjoining University Study Centre, state-of-the-art laboratories and building blocks with cutting-edge amenities is absolutely unmatched. St. Joseph's Hall, an Executive Hall with Lecture Capturing System that holds a capacity of 180 enables the college to keep pace with the technological advancement of contemporary academia. The augmentation of the infrastructural facilities took a different dimension with the construction of the Integrated Sports Complex with an adjoining Olympic Standard Swimming Pool. A Walkers' Lane, an annex to the Complex,

provides a wellness avenue for the public in resonance with the best practice of the college- Psychosomatic Wellness. A newly constructed Open Gym abiding by the green protocol of the college remains the first of its kind among nearby aided colleges affiliated to the University. The waste management system of the college with incinerators and e-waste disposal mechanism is faultless. Some of the other infrastructure facilities are: Hostel, Student's amenity centre, Book & stationery store, , computer centres, Lightning prediction devices, A widespread playground, Jimmy George stadium, Indoor stadiums, Gymnasium & Health club, Chapel & meditation centre, Yoga centre, Solar energy plants, Rainwater harvesting plants, Botanical garden, Medicinal plants garden, Organic farming garden, Power generators for uninterrupted power supply etc.

### OTHER SUPPORTING INFRASTRUCTURE FACILITIES

#### 1. Walkers Line – Total length : 700 Meters

A 700 metre length walker's lane, fully lighted with LED lights, paved with porch tiles through the thick flora encircling the play ground of St.Thomas College, Palai (Photographs shown below):

## 2. Play Ground

This is one of the biggest play grounds of an educational institution all around the central Travancore region and Kottayam district of Kerala state. Open to students, teachers, supporting staff, alumni and the public who maintains a membership in the integrated sports complex or who have got written permission from the authorities. This play ground is beautifully encircled by the walker's lane (photographs shown below):

### **3. Jimmy George Stadium**

To honor the fond memories of Sri.Jimmy George, an International volley ball player and an alumnus of St.Thomas College Palai, who died in an accident during the visit to Italy in connection with an international volley ball tournament, the college maintains a stadium in front of the administrative block of the college. It has facilities such as volleyball court, basket ball court, galleries, podium etc.

### **4. Gym & Health Club**

An indoor gymnasium and health club are functioning in the campus to look after the physical wellness of the students and staff, especially members of the college wrestling team, weight lifting team, students who practice martial art etc.

## 5. Open Gymnasium

As a pioneer institution who introduced many novel ideas and facilities in sports and games including swimming, the college introduced a unique idea of open gymnasium, which was identified as the first in this category in the state of Kerala by media persons and sports journalists. It ensures a total package of physical fitness to students and staff of the college. The most attracting feature of the gymnasium is that anybody can utilize the facilities at any time without any prior permission, provided strict discipline; modest dress code and strict silence are maintained, especially during class time.

## **6. Swimming Pool**

One of the outstanding features of St.Thomas College Palai is its Olympic standard swimming pool. The 11 crore dream project of St.Thomas college Palai including this swimming pool and the multipurpose integrated sports complex was partially supported by UGC and the major share was invested by the management, teachers, alumni and well-wishers of the college.

Swimming Pool

## 7. Integrated Sports Complex

**Integrated Sports Complex**

## **8. Solar Energy Harvesting Unit**

To support the huge energy requirement of the college and to propagate the idea of green, non-depleting and environment friendly energy usage, the college started many small solar energy generating systems and devices during the last many years. In addition to this, a new solar energy plant of 10KW capacity was started functioning in 2019. A striking feature of this power plant is that the plant is constructed as a car parking shack where the entire roofing is constructed with solar panels.

**Solar Energy Harvesting Plant**

## 9. Organic Farming

The college supports the concept of producing pollutant free, healthy vegetables, fruits and food grains within the campus by practicing the methods of organic farming. Under the leadership of the staff and students of the Department of Vocational Education, we practice this for the last many years.

**Organic Farming**

## 10. Medicinal Plants Garden

Kerala is blessed with a variety of herbal medicinal flora, widely spread all through the Western Ghats. We have a rich collection of medicinal plants in our campus also. The medicinal plants garden is developed and maintains by the students, research scholars and staff of the Research& Postgraduate Department of Botany of the college.

**Medicinal Plants Garden**

## **11. Botanical Garden**

A well maintained botanical garden is one of the conspicuous characteristics of St.Thomas College Palai. A variety of rare species of flora is maintained in this garden. The Staff and students of the Research& Postgraduate Department of Botany look after this garden.

**Botanical Garden**

## **12. Rainwater Harvesting Units**

We have rain water harvesting plants inside the campus with a capacity of 20,000 L altogether. This helps to meet the water requirement to a considerable extent.

**Rain water harvesting plants**

### **13. Chapel: Prayer and Meditation Centre**

A chapel is functioning within the campus, in a serene atmosphere, throughout the working time where any student or staff, irrespective their religion, caste, or belief can spend time in praying or meditation silently.

**Chapel and meditation centre**

### **14. Yoga**

An active Yoga club which organizes various activities including Yoga classes, Yoga camps, observing International Yoga day etc. is functioning in the college. We have qualified Yoga trainers among our teaching faculty, supporting staff and students who provide guidance and help to other staff and students of the college.

**Yoga class and Yoga camp**

## **15. Solid Waste Management**

In addition to the conventional waste management devices functioning in the campus for years, specially designed plants were installed for the management and processing of solid waste including plastics.

**Newly constructed solid waste management plant**

### DEATH OF A TITAN

**VERY REV. MSGR JOSEPH KUREETHADOM**

PASSED AWAY ON THE TWENTY-EIGHTH DAY OF AUGUST 1974. PRINCIPAL FROM 1952 TO 1968, HE BUILT UP ST. THOMAS COLLEGE FROM ITS MEAGRE BEGINNINGS TO ITS PRESENT EMINENCE. FOR ALMOST TWO DECADES HE IDENTIFIED HIS HISTORY WITH THAT OF ST. THOMAS COLLEGE. SUPER-STATURED IN BODY AND MIND, COMMANDING FIERCE LOYALTY FROM HIS FRIENDS, GIVING NO QUARTER TO HIS ENEMIES, MAGNANIMOUS IN VICTORY, DEFIANT IN DEFEAT, HE STRODE THE CAMPUS LIKE A COLOSSUS, RADIATING POWER AND CONFIDENCE, COMPELLING ADMIRATION EVEN FROM HIS ANTAGONISTS. OUR HOMAGE TO THE MEMORY OF THIS GREAT MAN — THE ARCHITECT OF ST. THOMAS COLLEGE, A TOWERING FIGURE IN THE REALM OF UNIVERSITY EDUCATION IN KERALA, A POWERFUL ADMINISTRATOR. WE SHALL BE PROUD TO SAY WE LIVED IN HIS TIME.

Mr. O. Rajagopal, Hon'ble Minister of State, Govt. of India delivers the valedictory address.

The youngest in  
the country;  
The seniormost  
in the state!  
**Prof. V. J. Sebastian  
Narively** (Head of the  
Dept. of English)

When he passed his B. A. at the age of 16 in 1965, Mr. V. J. Sebastian Narively was the youngest graduate in the country - a record that remained unchallenged till 1998. Subsequently when he joined the English Department of St. Thomas College Pala after post graduation in 1967, he was the youngest college teacher in India. Born in November 1948, Prof. Sebastian joined the sixth standard at school at the age of six; he passed the SSLC Examination at 12 and graduated at 16. He passed his M. A. in 1967 at the age of 18, again creating a record. Now with 33 years of service, Prof. Sebastian can claim to be the seniormost college teacher within his age group, in the whole country.

(Ref: *Manorama Year Book 2000*)

2001-2002
