DEPARTMENT OF MALAYALAM
ST. THOMAS COLLEGE PALAI
STUDENT MENTORING SYSTEM

Our department provide faculty mentors for all students in the UG and PG programmes . The mentoring programme is to provide an emotional encouragement and motivation during this challenging time. The students are equally divided and they took one faculty as their mentor. During this pandemic situation, the mentor conduct them through phone and discussed their learning problems, and also in the professional affects. It is very helpful to them for overcome the challenges and to grab the opportunities.

STUDENT MENTORING SYSTEM

Our department provide faculty mentors for all students in the UG and PG programmes . The mentoring programme is to provide an emotional encouragement and motivation during this challenging time. The students are equally divided and they took one faculty as their mentor. During this pandemic situation, the mentor conduct them through phone and discussed their learning problems, and also in the professional affects. It is very helpful to them for overcome the challenges and to grab the opportunities.

Mentoring – Issues raised and resolved

Name of the Department: ZOOLOGY

Sl. No.	Name Of the Mentor	Issues raised	Resolution
1.	Dr. Mathew Thomas	Difficulty in studying	Conducted remedial classes for academically weak students.
2.	Dr. Jayesh Antony	Lack of concentration in studies and mobile phone addiction.	Arranged personal counselling provided in college.
3.	Dr. Pratheesh Mathew	Slow to grasp classes	Conducted remedial classes for slow learners.
4.	Ms. Ann Susan Mathew	Mobile phone addiction	Arranged personal counselling provided in college

MENTOR-MENTEE PROGRAM

Objectives :

- Refining teacher-student communication.
- Supporting personal and professional growth and monitoring psychological growth and progress of students.
- Identifying special talents, skills,slow learners and passing this information on to the relevant committees.
- Providing sustained motivation to students.
- Identifying learning needs.
- Cultivating a healthy and learning environment in college.
- Assisting students in developing rights,responsibilities and values.

Expected outcome:

- Student wellbeing and success is one of the primary goals of any institution. By listening actively and patiently mentoring help to create an active and conducive environment for open communication. To build trust is one of the biggest challenges of mentoring and a good mentor should establish a relationship grounded in trust and absolute confidentiality. In short,mentoring aspires to transformational positive changes in students. It augments self confidence, improves peer bonding and prepares mentees for career advancement.

Problems faced by Students:

- Most of the students are weak in determining personal and career goals.
- Family expectations or problems.
- Depression, lack of energy or motivation, hopelessness, homesickness.
- Most of the students have graduation in streams other than microbiology and biotechnology. So they find it difficult in the beginning to get into pace with the subject.
- Too many distractions.
- Difficulty in concentrating.
- Cannot enjoy in studying the subject.
- Struggling of time management.
- Health issues.
- Friendship issues.
- Career pressure.
- Financial issues.
- Domestic disturbances and personal obstacles.

Resolving measures undertaken by the mentors:

- Some students are frustrated at the start due to issues of adjusting with the new place. Those pupil are adviced to face those issues and resolve them right away. Through proper listening to their

problems and right guidance, they realize that facing problems is the wisest thing instead of quitting.

- Students who are distressed or disturbed are referred to the counseling program of the college.
- Students with health issues are given mental strength to get to it and make themselves healthy once again instead of pretending it doesn't exist. They are advised to take proper medications as well as the parents are frequently contacted to enquire about the treatment undertaken.
- A few have some friendship issues which affect their mental health. Those who are worried of such matters are told to know who they are dealing with and then move forward with the friendships and also to limit interactions with friends who are unhealthy and toxic for them.
- There are many students who get into depression soon after a failure. They are made capable to deal with the failure as well as every barrier that might come across.
- Career pressure is another obstacle for victory of many students. Through proper interaction with mentees, they are guided to identify the issues that might be within them, such as personal or attitudinal problems and to work on themselves and get back on their feet and try again.

Thus by creating an atmosphere where there is reciprocity in interaction between mentor and mentee, it is possible to build up a successful student .
